

# Robocup SSL

A technical league but affordable

# A quick overview of the SSL

- Two teams of 6 robots.
- A soccer field of 10.4m by 7.4m.
- A camera returns the positions of the robots to the computers of each team.

# The amount of work required vs The ambiance

- A Lot of work
- An incredible ambiance

# What robocup brings us

- Opportunity to work on advanced technology
- Meet teams that are at the top with high-performance robots.
- Opportunity to build an international network of robotics enthusiasts
- Acquire knowledge that may or may not be covered during the studies.
